Birth of the 3rd Millennium's civilization - Athens-5/3/2012
Open Letter "Accuse ... or release the freedom of speech!"**

The open letter "*Accuse ... or release the freedom of speech!*" requests an answer from Media leaders. Those who lay emphasis on the fatal "New World Order", while having ignored for 22 years (even for the presidential election!), the alternative life styles such as the "Civilization of the Third Millennium" proposed by Biosphere for Tomorrow .

**Politicians, journalists, citizens and actors of economic life,
between the "New World Order" and the "Third Millennium Civilization"
it is impossible to procrastinate any longer, now comes the time to choose!**

For two centuries the financial oligarchy has prepared the advent of the "New World Order". It is the domination of humanity by the caste of bankers and their servants. Their means to achieve their ends are chaos, dictatorship and premeditated disasters. After the first and second world war and many attacks against peaceful people, the final chaos, the "*right major crisis*", as they say, is now very close to happen as provided by G. Soros (See citations 1-2-3-4).

Since 1989, the "Civilization of the Third Millennium" is on track even if it is ignored by the media. It is, at the same time, the alternative and the antithesis of the "New World Order". To build a new society of Peace and Progress in the Brotherhood in less than twenty years is the challenge of our generation. Let's mount it! We are becoming builders, citizens of the world; "**Everything is at hand**" to succeed!

**Men of honour and respected presidents, like John Fitzgerald Kennedy and General de Gaulle
among others, have prepared this way (Cit 5).**

"Major tasks should be undertaken to achieve peace, justice and understanding among all men and nations, and to end the misery and suffering wherever they exist. I do not think this country will be at the top of the hill in the administration in our generation or our time, but one day it will be, and then I hope people will think we have done our part ..." J.F. KENNEDY.

"Everybody lies down. It will last ... as long as we do not denounce it and stop it. (...) It's an invasion spreading out as the course of a river. (...) Who builds a dam? Certainly not the river. It's men that are interested in protecting themselves from the flood. However, nobody has such courage. It is, therefore, up to us to accomplish such a duty. You'll see that people will eventually follow our example, if we give it with splendour", Ch. De Gaulle.

From the Kennedy brotherhood to the citizen's brotherhood, from Athens to New York, let's profit from these men's breath that has enhanced the highest values of humanity against all odds. It becomes more powerful every day and will throw the paranoid frenzies of the oligarchs' domination of the "New World Order" into the dustbin of history. These businessmen, who deal in the shadow of their secret societies, will remain pathetic manipulators with a guilty conscience. ***Without hesitation, we, citizens of the world, let's pick up the JFK's torch which fell in Dallas on November 22nd of 1963.***

**We must not wait any longer to:
1 / Take the initiative, 2 / Pave the new way and 3 / Set deadlines**

On March 5th, 2012 at 12 o'clock, after a long winter night, the sun finally rises in the North Pole. The entire hemisphere is in the light. We have to make this symbolic renewal illuminate the entire planet and the mankind's course of history forever!

In Athens, the citizens' initiative takes control to resume the work that Greek people started 2500 years ago. It will be the birth of the "Accomplished Democracy" and the "Civilization of the third Millennium"!

The fundamental principle of our action will be **"The March of the United peoples of the Biosphere"** that will start in Athens, where the "First Democracy" was born. By using **"March"** we are reminded of the civil rights marchers of Martin L King in 1968, and by using **"United people"** we are reminded of the united people in Marseilles in 1792 who, among others, were the initiators of the French Revolution championing democratic values. The purpose of these peaceful demonstrations is to make governments all around the world take into account the citizens' aspirations and the planning of the **"Three Freedom Referendums"**.

These Referendums aim at the abolition of the debt and war punishment and the abolition of the financial oligarchy's powers. Between 2008 and 2011, banks have received 16 Trillion Dollars by the US Federal Bank in secret, without any compensation, and in total silence (Cit 6). Meanwhile, the financial and political oligarchy **does not hold a single referendum to obtain the opinion of the population** on the administration of the public affairs.

At first, **we require that three referendums are held for the peoples of the European Union!** Through these, we will ascertain if people have the right of speech, or if the "caste" is the only one giving orders to our elected officials. This first major step will end in Wall Street-New York when the financial Oligarchy will allow all the governments around the world to freely accept the founding principles of the **"Civilization of the Third Millennium"** and finally abandon the whims of the **"New World Order"**, (Cit 7-8).

We will wear a white pallium and strict policy of non-violence will be our principle; we will however be dynamic with the Quorum 1000; these will be the characteristics of this event, and of all the peaceful demonstrations that will follow thereafter. This is the effective way to put an end to the strategy of the "Wall City" oligarchs. Indeed, chaos and violence, in and out of the countries, are their stated goal to impose their dictatorship. This is explained in official statements such as Rex84 USA, which reveals one part of the plans that is to remove powers from national and federal governments. Everything is planned in their delusive schedule. They have already built 600 fully operational camps: the **"FEMA CAMPS"** in the USA. They have similar features to the concentration camps of the Second World War! More than 3500 other camps could be fully operational rapidly! Military agreements between member states of NATO can be easily reached; the risk of importing the dictatorship is big and our leaders intentionally avoid disclosing those issues! Even George Soros tells us: "Economic chaos, riots in Europe and civil war in the USA". The fatal plan of the oligarchy has made headway... (Cit 9)

The new Member States which would join the **"Civilization of the Third Millennium"** will arrange for their government to be comprised entirely of women; it would be the first government of the new era. 2500 years ago, the "First Democracy" was born in Greece. Although it was entirely run by men, it is so far the greatest political progress of our civilization. All the requirements for the birth of the "Accomplished Democracy", which would enable the new civilization to develop, are met in Greece at the moment. As a fair consequence, a first Assembly composed exclusively of women would enable a vital renewal of policies. They would perfect the work of builders and by merit would become equal to men in the administration of public life.

It is really urgent that the Biosphere enters the dynamics of peaceful and fraternal progress; March 5th, 2012, with Greece again and forever, the melting pot of democracy.

So, for the “New World Order” there is nothing to do, the oligarchs take care of everything!
By contrary, under the light of truth, if you want to build a new society of peace and progress for all peoples, we must stand up now; Tomorrow may be too late.
